

STATE OF TENNESSEE

TREASURY DEPARTMENT

STATE CAPITOL
NASHVILLE, TENNESSEE 37243-0225

SQL Developer / Junior DBA

The Tennessee Department of Treasury impacts the lives of Tennesseans every day. We safeguard Tennessee taxpayer dollars, teach citizens to make financial decisions, manage approximately \$50 Billion Dollar assets in house for the State of Tennessee pension fund, provide retirement coverage to State employees, and return abandoned property.

Information Systems Division is seeking two SQL Developers/Junior DBAs to support creating new and enhancing existing software applications. As a key member of the development project team, the SQL Developers/Junior DBAs will perform the following activities:

- Create Transact SQL scripts to maintain data based on work item requirements created by system users
- Participate in daily meetings with development team and update progress on work items assigned
- Confer with manager or project manager on status of work items and provide feedback from system users
- Collaborate with system users on requirements when needed
- Estimate level of effort of work items
- Maintain status of work items in project management tool
- Review and run SQL scripts in various database environments for software deployment.
- Create and modify stored procedures
- Monitor database activity to identify expensive queries
- Optimize SQL code to improve efficiency.

Graduation from an accredited college or university with a Bachelor's degree in Computer Science or Information System is required, along with 3 to 5 years of experience using SQL Server Management Studio 2008 R2 or later.

To apply, submit your resume to: Treasury.Resumes@tn.gov

The State of Tennessee is an Equal Opportunity Employer.
